The claim for priority needs to be corrected.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

Claims 36-39 and 59-62 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Dolan et al. See figure 2 and col. 2:53 through col. 6:56.

Claims 36-39 and 59-62 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Moore. See the whole document.

Claims 63-77 are allowable over the prior art of record.
